

IGF automatic recognition of Therapeutic Use Exemptions

In accordance with Article 4.4.2.1 of the 2015 IGF Anti-Doping Policy, Therapeutic Use Exemptions (TUE) that have been issued in line with the criteria set out in the International Standard for Therapeutic Use Exemptions by the National Anti-Doping Organisations from the countries listed below, will automatically be recognised by the International Golf Federation (IGF) for the purposes of a Player's participation in an IGF International Event (please refer to list of events below). The Player should contact the IGF (antidoping@igfmail.org) to request automatic recognition of their TUE.

Australia	France	India
Austria	Great Britain	Ireland
Belgium	India	Philippines
Brazil	Ireland	Portugal
Canada	Italy	South Africa
Chile	Japan	Singapore
China	Germany	Switzerland
Chinese Taipei	Korea	Sweden
Colombia	Malaysia	Thailand
Czech Republic	Netherlands	United States of America
Denmark	Norway	Venezuela
Spain	New Zealand	
Finland		

The IGF shall accept a TUE granted by a Professional Golf Tour, where the TUE has been determined in accordance with the International Standard for Therapeutic Use Exemptions.

IGF International Events:

- Olympic Games
- Youth Olympic Games
- World Amateur Team Championship
- The Amateur Championship
- The Boys Amateur Championship
- International European Ladies Amateur Championship
- International European Amateur Championship
- US Ladies Amateur Championship
- US Amateur Championship
- The Asian Amateur Championship, and
- any other tournament adopting directly the IGF Anti-Doping Policy, with the written agreement of the IGF.

A Player participating in an IGF International Event who has been granted a TUE from a National Anti-Doping Organisation from a country **not** listed above, should apply to the IGF (antidoping@igfmail.org) for the recognition of that TUE by submitting a copy of the TUE, the TUE application form and all supporting materials used to make the application for assessment by the IGF Therapeutic Use Exemption Committee.
